

Booking a Medical

Booking a Medical at Renmark Medical Clinic

Prior to booking a medical, we require a copy of the medical paperwork, as well as a medical booking slip completed for the candidate. This paperwork can be emailed through to the clinic: info@renmarkmedical.com.au

A booking slip can be sent in response for your company to keep on file. Once both documents are received, one of our staff will contact you and arrange a date and time, a booking confirmation will be sent via email with any instructions for the booking.

Musculoskeletal assessments **cannot** be performed at Renmark Medical Clinic and need to be completed by a qualified physiotherapist, prior to the medical booking. These results need to be brought along to the medical booking for the doctor to go over.

XRays **cannot** be performed at Renmark Medical Clinic. Our doctor can provide a referral at the time of the medical, for the patient to then have this done. Once the XRay has been completed, our doctor will receive the report, this can be checked and forwarded on.

For further enquiries on any of the information in this brochure or to arrange a quote:

Phone Renmark Medical Clinic (08) 8586 4111

 Renmark Medical

QFever

Do your workers have regular contact with livestock?

Are your workers at risk of contracting QFever?

This is a two step process, where the patient will initially have a skin and blood test to see if they have already been exposed to QFever, followed by a second appointment exactly 7 days later to have the vaccine.

Call Renmark Medical Clinic to find out more.

Employment Medicals

Renmark Medical Clinic have appointments readily available with our nurses and doctors to provide your business with all their employment medical needs.

Our trained nurses and doctors will work together to complete the candidate's paperwork, as well as any testing required.

Testing Services

Why disrupt your staff and working day, sending employees to us, when we can come to you?

Testing done onsite and in the Clinic

Upon request, we have nurses and doctors who can provide a range of services both onsite and within the Renmark Medical Clinic facility.

These tests include:

- Medicals
- Drug and Alcohol Tests
- Spirometry
- ECG available in the clinic
- Audiometry
- Vaccinations
- Skin Checks

Quotes are available on request.

Drug and Alcohol Testing

Renmark Medical Clinic have nationally accredited staff who are able to perform both urine drug and alcohol testing and saliva drug and alcohol testing. Both of these test for 7 drugs and alcohol and will give an instant result. If the result appears positive, it is sent away for laboratory testing. This result can take a number of days to return.

Drug and alcohol testing can be performed either at the clinic or onsite during business hours. After hours onsite bookings can be arranged.

Contact us to discuss these options further.
